

TERMS OF SALE

GUIDANCE NOTES

This document is important. If you are in any doubt as to the action you should take, you should consult your legal, financial, tax or other professional advisor.

The sale set out herein does not constitute an offer of securities nor is it registered with or specifically approved by any regulatory authority in any jurisdiction. There are also representations and warranties you have to accept prior to purchasing the Tokens. If you do not agree to these, please do NOT purchase the Tokens.

These Terms of Sale (the “**Terms of Sale**”) (including **Schedules A, B, C and D**) contain the terms and conditions that govern the terms and conditions upon which the Pinknode Tokens (the “**Tokens**”) are sold to you (the “**Purchaser**”, “**you**”) by PinkNode Limited (BVI Company Number **2057741**), a company incorporated in the British Virgin Islands whose registered office is at Intershore Chambers, Road Town, Tortola, British Virgin Islands (the “**Vendor**”, “**us**”, “**we**”, or “**our**”). Each of the Purchaser and Vendor is a “**Party**,” and collectively, the “**Parties**”.

By offering to purchase the Tokens from the Vendor during the Token Sale Period as defined under paragraph 2.2 of Schedule A, the Purchaser agrees to be bound by these Terms of Sale and all other agreements, terms, sections, schedules and annexes herein that are incorporated by reference, in the event such an offer is accepted by the Vendor.

NO OFFER OF SECURITIES: The Tokens are not being structured or sold as securities or any other form of investment product. Accordingly, none of the information presented by the Vendor (whether in this document or not) is intended to form the basis for any investment decision, and no specific recommendations are intended. No regulatory authority has examined or approved any information set out in these Terms of Sale or any information provided or communicated by the Vendor (including the whitepaper (“**Whitepaper**”) which can found at: <https://pinknode.io/docs/lightpaper.pdf>) and the publication and dissemination of any such information does not imply that applicable laws, regulatory requirements or rules have been complied with.

RISKS AND FORWARD-LOOKING STATEMENTS: The information presented to you by the Vendor (including those in this document and/or the Whitepaper and/or any statements made by us, our employees or persons acting on our behalf) (“**Information**”) may contain forward looking statements based on the Vendor’s assumptions and projections and third-party information/publications. Please note that no independent review of the Information has been carried out and we cannot assure the accuracy or completeness of the Information or the underlying assumptions made in third-party information/publications. Further, the risks set forth herein are not an exhaustive list of the challenges currently facing the Vendor or that may develop in the future. There may be additional risks not described below or not presently known to the Vendor or that the Vendor currently considers as immaterial that could turn out to be material, which may in the future have a material adverse effect on the Vendor and the development of the Tokens. In purchasing the Tokens, you expressly acknowledge and agree that you have not relied on any or all of the Information, and you agree to assume all these risks and uncertainties, including the potential loss of your entire purchase amount.

DISCLAIMERS: The Vendor expressly disclaims any and all responsibility for any direct or consequential loss or damage of any kind whatsoever arising directly or indirectly from: (i) reliance on any or all of the Information, (ii) any error, omission or inaccuracy in any or all of the Information or (iii) any action resulting from such Information.

NO ADVICE: No Information shall be construed as advice of any sort. If you are in any doubt as to any matter relating to the Tokens, you should consult your legal, financial, tax or other professional adviser about your particular circumstances.

You should not purchase the Tokens if you do not understand the nature of blockchain or cryptographic tokens and other digital assets, smart contracts, storage mechanisms (such as digital or token wallets), blockchain-based software systems and blockchain technology, or are not comfortable with the accompanying risks.

DELIVERY: The Vendor will deliver half of the Tokens immediately after the conclusion of Token Sale Period (“**Token Delivery Date**”) and the remainder of the Tokens one (1) week thereafter but reserves the right to delay delivery for up to 21 working days after the Token Delivery Date. Although the Vendor does not anticipate any major delays relating to the delivery of the Tokens, this extended timeframe is intended as a precautionary buffer period.

SCHEDULE A | Use, Purchase and Delivery of Tokens

1. PURPOSE AND USAGE OF TOKENS

1.1 The Vendor is presently developing the Tokens and the digital wallet for the Tokens, which shall be used to receive, store, and transact in the Tokens. The Tokens are created with the aim of being implemented and used on the platform built by the Vendor (the “**Pinknode Platform**”). Further details of the Tokens and the Pinknode Platform can be found in the Whitepaper.

1.2 You agree that the potential uses of the Tokens are solely for the following purposes:

- (a) Accessing the Pinknode Platform
- (b) Staking for API access and securing of the Pinknode Platform
- (c) Governance on the Pinknode Platform

1.3 You agree that ownership of Tokens carries no rights, rewards, sums, benefits, or entitlements, whether express or implied, other than the right to use Tokens as a means to enable usage of and interaction with the Pinknode Platform as stated above, if it is successfully completed and deployed. Usage of the Tokens is subject to limitations and conditions in these Terms of Sale, and any other applicable terms and policies as determined by the Vendor and as amended from time to time, which govern any use of Tokens in connection with interacting with the Pinknode Platform.

2. PURCHASE AND DELIVERY OF THE TOKENS

2.1 Reference to details set out in the “**Sale Website**” are those that are available at <https://pinknode.io/> at the time of the Offer as described in Paragraph 2.8 of this Schedule A.

2.2 The sale period (“**Token Sale Period**”) for the public sale of the Tokens (“**Token Sale**”) shall be as stated on the Sale Website and Whitepaper, and the total number and allocation of the Tokens shall be as set out in the Whitepaper.

2.3 The Token Sale shall be conducted through the website at <https://polkastarter.com/> (the “**Polkastarter Platform**”) and is subjected to the terms and conditions set out at <https://polkastarter.com/terms> to the extent that they do not conflict with these Terms of Sale. In the event of any conflict or inconsistency between the abovementioned terms and these Terms of Sale, the Terms of Sale shall govern and control.

2.4 Your purchase of Tokens from us during the Token Sale Period is irrevocable, non-redeemable, and non-repurchasable by the Vendor, and there shall be no refunds or cancellations, except as required by applicable law or regulation or these Terms of Sale.

2.5 At any time, the Vendor may determine, in its sole discretion, that it is necessary to obtain certain information about you in order to comply with applicable law or regulation. Such information will be used by the Vendor to conduct its due diligence checks and verifications on all Purchasers, for the purpose of compliance with Anti-Money Laundering and Countering the Financing of Terrorism (“**AML/CFT**”) regulations and best practice guidelines. The Vendor will use such information to assess your eligibility to purchase or hold the Tokens. You agree to provide us with such information promptly upon request, and you acknowledge that the Vendor may, at its sole discretion for whatever reason, disallow you from purchasing the Tokens if: (i) you refuse to and/or delay in providing such requested information; or (ii) after receipt of the

requested information, the Vendor is of the view that the sale may not be in compliance with any applicable law or regulation; or (iii) after delivery of the Tokens to you, the Vendor determines that you are not eligible to hold the Tokens.

2.6 To be able to purchase the Tokens during the Token Sale Period, Purchasers must have full operational access to their wallets that have been whitelisted previously for the Token Sale on the Polkastarter Platform (each a, "**Whitelisted Wallet**"). The Vendor reserves the right to amend the type of Whitelisted Wallet that it accepts, to dictate any specifications of the Whitelisted Wallet, as it deems fit, at any time as reflected in the Sale Website, or to modify the number of Tokens you are entitled to.

2.7 To receive the purchased Tokens, the Purchaser shall send the required number of ETH (as set out in on the Polkastarter Platform) ("**Purchase Price**") to the smart contract on the Polkastarter Platform ("**Polkastarter Address**"). The Purchaser shall send the **exact** Purchase Price plus any applicable gas fee to the Polkastarter Address. If the Purchaser sends an inadequate amount of gas is used for the transaction, the transaction may be rejected and the ETH will be returned to the Whitelisted Wallet (less any applicable gas fee). In the circumstances, the Vendor shall not be responsible for any direct or indirect loss suffered by the Purchaser.

2.8 Your submission of the Purchase Price to the Polkastarter Address through your Whitelisted Wallet shall be deemed as an offer by you to purchase the Tokens ("**Offer**"). The Offer shall not be revocable up until the Token Delivery Date (as defined hereinafter). The Offer is accepted upon the Vendor's delivery of the purchased Tokens to your Whitelisted Wallet ("**Acceptance**"). Parties agree to accept and be bound by these Terms of Sales upon the Acceptance. The Polkastarter Address will deliver the purchased Tokens to the Whitelisted Wallet that you have provided to Vendor in accordance with these Terms of Sale.

2.9 You are responsible for implementing reasonable measures for securing the Whitelisted Wallet, vault or other storage mechanism you use to receive and hold the Tokens you purchase from us, including any requisite private key(s) or other credentials necessary to access such storage mechanism(s). If your private key(s) or other access credentials are lost, you may lose access to your Tokens. We are not responsible for any such losses.

2.10 The Vendor reserves the right to prescribe additional guidance, instructions and terms regarding specific wallet requirements as set out in the Sale Website, which you agree to adhere to. The Vendor may also request certain optional information, such as an email address, through its web interface.

SCHEDULE B | RISKS & DISCLAIMERS

By purchasing the Tokens, you expressly acknowledge, accept, understand and agree to assume the following risks and disclaimers pertaining to the Tokens:

1.1 The Tokens are sold on an "as is" and "as available" basis and the Vendor expressly disclaims all implied warranties as to the same, including, without limitation, implied warranties of merchantability, fitness for any particular purpose, title and non- infringement.

1.2 The Tokens are designed for very specific use with respect to certain virtual ecosystems and should not be treated as being merchantable and do not necessarily have any other use or value. There should be no specific outlook or expectation on the merchantability or market price of the Tokens and the purchase of Tokens is therefore not subject to protections of any kind afforded by securities laws in the Purchaser's home jurisdiction or in any other jurisdiction.

1.3 The Tokens are not intended to be or function under any circumstances as any form of security, commodity or any other kind of financial instrument, including but not limited to:

- (a) a security or representing any equity or ownership interest in the Vendor or any other entity in any jurisdiction;
- (b) a debt or liability of any nature owed by the Vendor to the Purchaser or any other entity;
- (c) any form of financial derivative including, but not limited to, a futures contract, forward contract, option, swap or warrant;
- (d) a contract for difference of any form or kind or any other contract, the purpose of which is to secure a profit or avoid a loss by reference to fluctuations in the value or price of an asset or an index;
- (e) any commercial paper or negotiable instrument;
- (f) any commodity or asset that any person is obliged to redeem or purchase;
- (g) any note, bond, warrant or other certificate that entitles the Purchaser to repayment of the Purchase Price, any interest, dividend or any other kind of return on the Purchase Price by the Vendor or any other entity;
- (h) giving the Purchaser rights of any form with respect to the Vendor or its profits, revenues or assets (both current and future), including, but not limited to, any voting, distribution, redemption, liquidation, proprietary (including all forms of intellectual property), or other financial or legal rights (including but not limited to fiduciary duties); or
- (i) an interest or share in any investment fund or collective investment scheme;
- (j) the pooling of monies with the aim of spreading investment risk; and/or
- (k) entitling the Purchaser to participate in any profits or gains from the acquisition, holding management or disposal of assets.

1.4 The Vendor expressly disclaims any liabilities whatsoever to the Purchaser, and shall not be liable to the Purchaser for any loss, damage or delay caused by, arising from, or in respect of the following:

- (a) Private Key(s) May be Compromised. Private access keys or a combination thereof are necessary to retain access to and control over any Tokens you have stored in your digital wallet(s). In the event that these keys are lost, stolen or hacked by a third party, or if the service provider gets compromised, you may lose all of the Tokens you have stored with little to no avenue of recourse. The Vendor assumes no liability to the Purchaser in such situations.

- (b) The Ethereum Platform and Polkastarter Platform. Any failure, dysfunction, destruction, or desertion of the Ethereum Platform and/or Polkastarter Platform is beyond the control of the Vendor and may have a material adverse effect on the Tokens and/or the Pinknode Platform, which is being built upon them. Other technological developments and advancements in areas such as blockchain technology, cryptography, or quantum computing may also render the Ethereum Platform, Polkastarter Platform, Tokens and Pinknode Platform obsolete.
- (c) Delays and/or default in Delivery. Due to the nature of the blockchain technology being used for cryptocurrencies, including the Polkastarter Address, the Purchaser may not receive the Tokens on the same day that the Purchase Price is paid, or at all, and the blockchain may also be prone to periodic congestion during which the Purchaser's transactions may be delayed or lost.
- (d) Resource Volatility. The Vendor remains vulnerable to price fluctuations of the resources used to fund the development of the Token and the Pinknode Platform. Such resources are derived from the sale of the Tokens, among other sources, and include ETH, Bitcoin, other related cryptocurrencies as applicable, and fiat currency. The ongoing development and maintenance of the Vendors' technologies and infrastructure may be adversely affected, delayed or suspended by such unpredictability.
- (e) Mining Attacks. The accurate lodgement and recording of transactions on the Ethereum Platform and Polkadot blockchain protocol depends greatly on the process of distributed verification by miners. This process of validation is vulnerable to many known exploits which may impair or affect the ability of the Pinknode Platform and the Tokens to function.
- (f) Cybercrime and Security Failure. The Pinknode Platform and/or the Tokens remain susceptible to malicious cyberattacks by autonomous software or hackers, and other illegal cyber activities. Such attacks could include, among others, phishing, malware attacks, distributed denial of service attacks, consensus-based attacks, Sybil attacks, smurfing and spoofing. The internal security of the Pinknode Platform's core infrastructure may also be compromised by external agents or the employees, agents and affiliates of the Vendor, which could debilitate the functioning of Pinknode Platform and the Tokens.
- (g) Secondary Markets. There may be limited secondary markets for the trading of the Tokens that are being supported by the Vendor. In absence of any valuation system, the Tokens may have little to no value outside of the Pinknode Platform, or they may be subject to lack of demand or volatile price fluctuations, leading to illiquidity. Further, many secondary third-party exchanges function with little supervision from the relevant authorities, heightening the risk of failure, fraud, theft, or manipulation.
- (h) Vendor or Ecosystem may be Dissolved. Due to any number of uncertainties in the cryptocurrency industry, including but not limited to resource volatility, business failure, government regulations, lack of technological development, or any other unforeseen circumstances, the Vendor or the Pinknode Platform may be rendered non-viable and dissolved without notice.
- (i) Development of Ecosystem. The Pinknode Platform remains subject to review, changes, and further research and development. There are no guarantees that the Pinknode Platform and the Tokens will function as intended or if they will function at all. Circumstances may arise which call for the entire ecosystem to be revamped, for the characteristics of the Tokens to be redefined in any number of ways, or any combination thereof. Further, the Pinknode Platform remains vulnerable to systemic failure, unidentifiable malfunction, and lack of skill or resources for proper maintenance and/or further development.
- (j) Alternative Ecosystems. The establishment of other commercial ecosystems which offer products, services or solutions identical or superior to the Pinknode Platform, or which utilise the same underlying Platform, may result in competition. In such event, and where the Vendor is unable to compete for any reason, the Pinknode Platform and the Tokens may suffer

failure.

(k) Cloud Storage. The Vendor may utilise cloud storage solutions for any of its operational and commercial needs. Such systems are vulnerable to the accompanying risks of information decentralisation, including but not limited to breach of storage security, service interruption, cyberattacks, loss of assets, and suspension of access. The Vendor may irretrievably lose large amounts of important data, rendering it unable to function temporarily or permanently. Among other negative consequences, this may result in the indefinite disruption or suspension of access to and usage of the Tokens and the Pinknode Platform.

(l) Lack of Critical Mass. The Pinknode Platform depends on adoption and participation by a critical mass of users in order to be functional and commercially viable. In the event that there are insufficient users over a prolonged period of time, the functionality of the Pinknode Platform and the potential utility of Tokens may be diminished or rendered commercially non-viable.

(m) Regulatory Impacts. The regulatory status of cryptographic tokens, including the Tokens, digital assets and blockchain technology is unclear or unsettled in many jurisdictions. In the event that any governmental authority makes changes to existing laws, regulations and/or rules or financial institutions make commercial decisions and such changes/decisions negatively impact the Tokens in various ways, the Vendor shall be entitled to cease the distribution and maintenance of the Tokens, or cease operations in any jurisdiction without incurring any liability whatsoever to the Purchaser.

(n) Intervention. The industry in which the Vendor operates is new and may be subject to heightened oversight and scrutiny. There can be no assurance that governmental authorities will not examine the operations of the Vendor and/or pursue enforcement actions against the Vendor. The Vendor may be subject to judgments, settlements, fines or penalties, or cause the Vendor to restructure its operations and activities or to cease offering certain products or services, all of which could harm the Vendor's reputation or lead to higher operational costs, which may in turn have a material adverse effect on the Tokens and/or impair the ability of the Vendor to perform its obligations under this Agreement. In such event, the Vendor shall not be held liable for any losses suffered by the Purchaser.

(o) Reliance on Third Parties. The Vendor may rely on other third parties, in whole or in part, to implement the sale, development or supply of the Tokens, and there is no assurance or guarantee that said third parties will be competent, complete their work for the Vendor, properly carry out their obligations, or otherwise meet any Party's needs, all of which might have a material adverse effect on the Vendor's ability to perform its obligations under this Agreement.

(p) Other Unforeseen Threats. Much of the cryptographic token industry remains unchartered and untested. Hence there may be a variety of unforeseen and unanticipated risks associated with the Tokens and the Pinknode Platform which are not explicitly addressed herein. Such risks may materialise at any point before or after the Purchaser acquires or uses the Tokens.

1.5 The Vendor retains all rights, title and interests in all of Vendor's intellectual property (whether registrable or not), including, without limitation, inventions, ideas, concepts, code, discoveries, processes, marks, methods, software, compositions, formulae, techniques, information and data, whether or not patentable, copyrightable or protectable in trademark, and any trademarks, copyright or patents based thereon. The Purchaser may not use any of Vendor's intellectual property for any reason whatsoever.

SCHEDULE C | REPRESENTATIONS & WARRANTIES

1. The Parties represent and warrant to each other that each of the following is true and correct:

- (i) Each Party has full power and authority to conduct its business and comply with the terms contained herein and has taken all necessary corporate and other action to authorise the performance of this Agreement;
- (ii) The execution and delivery of this Agreement and the performance of its obligations do not conflict with or violate any requirement of applicable law or regulation or any provision of its constitution, articles of incorporation or bylaws or any similar instrument, as applicable, in any material way, and does not conflict with, violate or breach or constitute a default or require any consent under, any contractual obligation or court or administrative order by which it is bound;
- (iii) Each Party is not in liquidation and no proceedings have been brought or, to the best of its knowledge, threatened, for the purpose of winding it up, liquidating it or declaring him or her bankrupt/insolvent; and
- (iv) Each Party has not entered into an arrangement, compromise or composition with or assignment for the benefit of its creditors or a class of them.

2. The Vendor accepts, agrees with, represents and warrants to the Purchaser, to the best of its knowledge, as follows:

- (i) It has the power and capacity to generate and deliver the Tokens pursuant to this Agreement;
- (ii) The number of Tokens created shall be finite at 200,000,000; and
- (iii) It shall take all commercially reasonable steps to ensure that the Tokens are securely distributed to the Purchaser upon payment of the Purchase Price and pursuant to the Terms of Sale.

3. By purchasing Tokens, the Purchaser accepts, agrees with, represents and warrants to the Vendor, (with the intent that the provisions of this clause shall continue to have full force and effect into perpetuity) as follows:

- (i) That, if the Purchaser is an individual, is either more than 18 years of age, or possess legal parental or guardian consent, and is fully able and competent to enter into the terms, conditions, obligations, affirmations, representations, and warranties set forth in these Terms of Sale, and to abide by and comply with these Terms of Sale.
- (ii) That the Purchaser has read and understood these Terms of Sale in full, including all other terms and agreements incorporated by reference. In particular, the Purchaser is fully aware of and accepts the risks set out in **Schedule B**;
- (iii) That the Purchaser has sufficient understanding of the functionality, usage, storage, transmission mechanisms and other material characteristics of cryptographic tokens, token storage mechanisms (such as token wallets), blockchain technology and blockchain-based software systems to fully understand these Terms of Sale and to fully appreciate the risks and implications of purchasing the Tokens;
- (iv) That the Purchaser understands that the Tokens confer only the right to interact with the Pinknode Platform and confer no other rights, rewards, benefits or entitlements of any form with respect to the Vendor or its corporate affiliates, including, but not limited to, any voting, distribution, redemption, liquidation, proprietary (including all forms of intellectual property), or other financial or legal rights;

- (v) That the Purchaser does not require approval from any governmental authority or person to execute, deliver or perform obligations under these Terms of Sale, and there is no proceeding or investigation pending or, to the knowledge of the Purchaser, threatened by any governmental authority, that would reasonably be expected to become the basis for the disqualification of the Purchaser from purchasing the Tokens;
- (vi) That the Purchaser shall at all times conduct its own due diligence and seek its own independent professional investment, tax and legal advice in relation to any matter related to these Terms of Sale;
- (vii) That the Purchaser has made investigation to obtain information it deems sufficient to verify all information presented, and has sufficient knowledge and experience in business and financial matters to be able to thoroughly and completely evaluate the risks and merits of the Purchaser's purchase of the Tokens and is fully able to bear the risks thereof, including loss of all amounts paid, loss of all the Tokens, and any difficulty in liquidating the Tokens wherever desired;
- (viii) That the Purchaser shall be solely responsible for providing an accurate digital wallet address (and/or valid email address that has been registered on the Pinknode Platform) to the Vendor for receipt of any Tokens and that the wallet is an Ethereum wallet that supports the ERC-20 token standard, and for implementing reasonable measures for securing access to the wallet, or other storage mechanism it uses to receive and hold the purchased Tokens, including any requisite private key(s) or other credentials necessary to access such storage mechanism(s);
- (ix) That the Purchaser agrees that the Vendor will not be responsible for any lost cryptocurrency, including the Tokens or Purchase Price, resulting from actions taken by, or omitted by Purchaser;
- (x) That the purchase and/or holding of the Tokens by the Purchaser does not violate any law of its relevant place of domicile and jurisdiction, and no further consent or approval from any governmental authority is required on its part in connection with the purchase of the Tokens, and even if there are additional requirements or restrictions related to the Purchase, the Purchaser agrees to comply with, and shall be solely responsible for complying with, any such regulations;
- (xi) The Purchaser is not a citizen of or resident or domiciled in any of the Prohibited Jurisdictions or making a contribution for the purchase of the Tokens from a location in any of the Prohibited Jurisdictions¹, nor is it an entity (including, but not limited to, any company or partnership) incorporated, established or registered in or under the laws of any of the Prohibited Jurisdictions;
- (xii) That the Purchaser will comply with any applicable tax obligations in its jurisdiction arising from its purchase of the Tokens and that all such obligations shall be borne solely by the Purchaser;
- (xiii) That the purchase price that the Purchaser paid for the Tokens is exclusive of all applicable taxes. The Purchaser is responsible for determining what, if any, taxes apply to its purchase of Tokens, including, for example, sales, use, value added, and similar taxes.
- (xiv) It is also strictly the Purchaser's responsibility to withhold, collect, report and remit the correct taxes to the appropriate tax authorities. Vendor is not responsible for withholding, collecting, reporting, or remitting any sales, use, value added, or similar tax arising from the Purchaser's purchase of Tokens.
- (xv) That the Purchaser will furnish all information reasonably requested by the Vendor for the conduct of AML/CFT checks within the requested time frame and that the information and/or document furnished are complete, accurate, truthful and up to date;

¹ Prohibited Jurisdiction refers to the United States of America, China, any country or territory that has been designated by the Financial Action Task Force as a "high risk and other monitored jurisdictions" and such other countries where participation in token sales and/or the acquisition, possession, storage, transfer or use of cryptocurrencies is prohibited by law

(xvi) That the Purchaser acknowledges that, in order to comply with measures aimed at the prevention of money laundering and terrorism financing, the Vendor and/or any of its delegates or agents, may require verification of the identity of the Purchaser and the source of the Purchaser's purchase monies before any application for the purchase of Tokens can be processed. The Purchaser undertakes to provide: (a) such information and documentation as the Vendor and/or any of its delegates or agents may request to verify any information about the Purchaser in compliance with applicable anti-money laundering laws and regulations; and (b) any further information and documentation as the Vendor and/or any of its delegates or agents may request from time to time to ensure ongoing compliance with applicable laws and regulations, or any other related policies, best practice guidelines and regulations as implemented by the Vendor at its sole discretion, from time to time. The Purchaser acknowledges that neither the Vendor nor any of its delegates or agents shall be liable for any loss arising as a result of a failure to process the Purchaser's application for Tokens if such information and documentation as has been requested has not been provided by the Purchaser.

(xvii) That the Purchaser understands and agrees that the Vendor prohibits the purchase of Tokens by any persons or entities that are acting, whether directly or indirectly, (i) in contravention of any other national, international or other money laundering regulations or conventions, or (ii) on behalf of terrorists, terrorist organizations or other high-risk entities, including those persons or entities that are included on any relevant lists maintained by the United Nations, Organization for Economic Cooperation and Development, Financial Action Task Force, Monetary Authority of Singapore, countries listed by Transparency International (www.transparency.org) as being vulnerable to corruption, or any country or organization, all as may be amended from time to time, (iii) for a senior foreign political figure, any member of a senior foreign political figure's immediate family or any close associate of a senior foreign political figures, or (iv) for a foreign shell bank (each of (i) to (iv) a "**Prohibited Purchaser**"), in each case unless the Vendor, after being specifically notified by the Purchaser in writing that the Purchaser may be a Prohibited Purchaser, conducts further enhanced due diligence, and performs appropriate verification checks on the Purchaser to ensure their legitimacy and reliability, and determines that such investment shall be permitted;

(xviii) That Purchaser is not a Prohibited Purchaser, and it is acquiring the Tokens for its own account; it has no present intention of selling, granting any participation in or otherwise distributing the Tokens to any other person; it does not have any contract, undertaking, agreement or arrangement with any person or entity to sell, transfer or grant participation to such person or entity or to any third party, with respect to the Tokens, and it is not purchasing the Tokens as nominee or custodian for any other person or entity;

(xix) That any information submitted by the Purchaser to the Vendor for the conduct of AML/CFT checks shall be within the Vendor's requested time frame, up to date, complete, truthful, and accurate as of the date of this Agreement, and shall continue to be so at any time that the Purchaser holds any Tokens;

(xx) That the Purchaser will as soon as practicable, notify and update the Vendor in writing of any development or change in circumstance which may have a material effect on any of the matters pertaining to the Purchaser referred to in this **Schedule C**;

(xxi) That in the event the Vendor determines, at its sole discretion, that any Purchaser is a Prohibited Purchaser, it may, without further reference to the Purchaser, take any action necessary to terminate the interests of the Purchaser in the Tokens, and the Purchaser shall have no claim against the Vendor for any form of damages whatsoever as a result of the same;

(xxii) That the Vendor may release confidential information about the Purchaser and, if applicable, any ultimate beneficial owner(s) of Tokens to any proper authorities in any jurisdiction, if the Vendor, in its sole discretion, determines that it is in the best interests of the Vendor in light of relevant rules and regulations concerning Prohibited Purchasers, money-

laundering, terrorism financing, or any other illicit purpose;

(xxiii) That the Purchaser only uses fiat currency or crypto-tokens as lawfully acquired, to make payment for the Tokens, that such currency is not derived from or related to any unlawful activities, including but not limited to money laundering or terrorist financing, and that the Purchaser does not acquire the Tokens to finance, engage in, or otherwise support any money-laundering, terrorism financing or other illicit purpose;

(xxiv) That to the extent that the Purchaser has any beneficial owners: (a) it has carried out thorough due diligence to establish the identities of such beneficial owners; (b) based on such due diligence, the Purchaser reasonably believes that no beneficial owner is a Prohibited Purchaser; (c) it holds the evidence of the identities and status of its beneficial owners and will maintain all such evidence for at least five years; and (d) it will make available such evidence and any additional evidence that the Vendor and/or any of its delegates or agents may require upon request in accordance with applicable regulations;

(xxv) That neither the Purchaser, nor any person having a direct or indirect beneficial interest in Purchaser or the Tokens being acquired by Purchaser, or any person for whom Purchaser is acting as agent or nominee in connection with the Tokens, is the subject of sanctions administered or enforced by any country or government (collectively, "**Sanctions**") or is organised or resident in a country or territory that is the subject of country-wide or territory-wide Sanctions;

(xxvi) That the Purchaser is in full compliance with all anti money laundering laws and regulations that are in force, and the purchase of the Tokens by the Purchaser will not be in breach of any laws and regulations that are in force in any relevant jurisdiction;

(xxvii) That the Purchaser, in knowledge that the Vendor may be relying upon its submissions acknowledgements, representations and statements contained therein without performing further verification, will completely, truthfully, and accurately comply with, perform any action, and fulfill any instructions and requests from the Vendor in order for the Vendor to comply with any anti-money laundering or customer due diligence policies, best practice guidelines and regulations as implemented by the Vendor at its sole discretion, from time to time;

(xxviii) If any of the representations, warranties or covenants above cease to be true or if the Vendor and/or its delegates or agents no longer reasonably believes that it has satisfactory evidence as to their truth, notwithstanding any other agreement to the contrary, the Vendor and/or its delegates or agents may, in accordance with applicable regulations, be obligated to: (a) take certain actions relating to the Purchaser's holding of Tokens; (b) report such action; and (c) disclose the Purchaser's identity to the Suspicious Transaction Reporting Office or other authority. In the event that the Vendor and/or its delegates or agents is required to take any such action, the Vendor understands and agrees that it shall have no claim against the Vendor and/or its delegates or agents for any form of damages as a result of any of such actions;

(xxix) That to the fullest extent of the law, the Purchaser shall indemnify and hold harmless the Vendor, their affiliates and their respective directors, shareholders, officers, employees and agents from and against any and all losses, liabilities, damages, penalties, costs, fees and expenses (including legal fees and disbursements) which may result, directly or indirectly, from (a) your purchase or use of Tokens, (b) your responsibilities or obligations under these Terms of Sale, (c) your violation of these Terms of Sale, or (d) your violation of any rights of any other person or entity; and (e) your failure to notify, and/or any omission, mistake, misstatement or breach in relation to the information that you furnish to the Vendor under these Terms of Sale.

SCHEDULE D | General Terms and Conditions

- Limitation of liability:** The Vendor shall not be liable for any indirect, special, incidental, consequential, or exemplary damages of any kind, arising out of or in any way related to any data or information communicated in any manner to the Purchaser, the sale or use of the Tokens or any matter otherwise related to these Terms of Sale, regardless of the form of action, whether based in contract, tort, or any other legal or equitable theory; and in no event will the aggregate liability of the Vendor, whether in contract, tort, or other theory, arising out of or in any way related to the sale or use of the Tokens, these Terms of Sale, or the use of or inability to use the Tokens, exceed the Purchase Price.
- Release:** Save for gross negligence, fraud or intentional, willful or reckless misconduct of the Vendor and to the fullest extent permitted by applicable law, the Purchaser releases the Vendor, its affiliates and their respective directors, members, partners, shareholders, officers, employees and agents from responsibility, liability, claims, demands and/or damages of every kind and nature, known and unknown, arising out of or related to disputes between users of Tokens and the acts or omissions of third parties, including those that the Purchaser only knows or suspects to exist in its favour after agreeing to this release.
- Force Majeure:** The Vendor shall not be liable and disclaims all liability to the Purchaser in connection with any force majeure event, including acts of God, labour disputes or other industrial disturbances, or utility failures, software or smart contract bugs or weaknesses, or nature-related events, blockages, embargoes, riots, acts or orders of government, acts of terrorism or war, technological change, changes in interest rates or other monetary conditions, or any technology failure and/or cybersecurity breach not solely due to the Vendor and, for the avoidance of doubt, changes to any blockchain-related Platform.
- Governing law:** This Agreement is governed by the laws of the Republic of Singapore. In the event the Tokens are deemed to be goods, the provisions of the United Nations Convention on the International Sale of Goods shall not apply to this agreement.
- Dispute Resolution:** Any dispute arising out of or in connection with this Agreement, including any question regarding its existence, validity or termination ("**Dispute**"), shall be referred to and finally resolved by arbitration in Singapore, administered by the Singapore International Arbitration Centre ("**SIAC**") in accordance with the Arbitration Rules of SIAC for the time being in force, which rules are deemed to be incorporated by reference in this Clause. The number of arbitrators shall be one (1). The language of the arbitration shall be English.
- No Partnership:** Purchase of Tokens from the Vendor does not create any form of partnership, joint venture or any other similar relationship between the Parties.
- Severability:** If any clause, provision or part-provision of this Agreement is or becomes invalid, illegal or unenforceable, it shall be deemed modified to the minimum extent necessary to make it valid, legal and enforceable. If such modification is not possible, the relevant provision or part-provision shall be deemed deleted. Any modification to or deletion of a provision or part-provision under this clause shall not affect the validity and enforceability of the rest of this Agreement.
- Waiver:** No failure or delay by any Party to exercise any right or remedy provided under this Agreement or by law shall constitute a waiver of that or any other right or remedy, nor shall

it preclude or restrict the further exercise of that or any other right or remedy. No single or partial exercise of such right or remedy shall preclude or restrict the further exercise of that or any other right or remedy.

9. **Entire Agreement:** This Agreement constitutes the entire Agreement between the Parties and supersedes all previous discussions, correspondence, negotiations, arrangements, understandings and agreements between them (whether oral or written and whether express or implied) relating to its subject matter. For the avoidance of doubt, there shall be no terms, conditions, warranties, representations, whether express or implied, deemed to have been made between the Parties other than expressly set out in these Terms of Sale. The Parties acknowledge and accept that no information apart from that which is expressly contained in these Terms of Sale have been relied on in any way, whether as an inducement or otherwise, into entering the agreement herein contained. Any information howsoever communicated by the Vendor to the Purchaser that is not expressly set forth in these Terms of Sale, including but not limited to the Whitepaper set forth in the Sale Website and any information contained in the same shall be deemed to have been superseded in whole by these Terms of Sale. No variation of this Agreement shall be effective unless reduced to writing and signed by each Party.

10. **Assignment:** No Party shall, without prior written consent of the other Party, assign, transfer, charge, subcontract or deal in any other manner with all or any of its rights or obligations under this Agreement.

11. **Contracts (Rights of Third Parties) Act:** A Person who is not a party to this Agreement has no right under the Contracts (Rights of Third Parties) Act, Chapter 53B of Singapore, to enforce or enjoy the benefit of any term of this Agreement unless explicitly provided for in this Agreement.

*The sale set out herein does not constitute an offer of securities nor is it registered with or specifically approved by any regulatory authority in any jurisdiction. The terms here contain clauses requiring binding arbitration and waiver of representative proceedings. There are also representations and warranties you have to accept prior to purchasing the Tokens. If you do not agree to these, please do **NOT** purchase the Tokens.*
